generous contributor agreed to match every dollar donated towards the construction of these facilities. If you give \$1 he will give \$1!

Honduran School Year

Schools in Honduras start in February and end in November. Public school is only provided through 6th grade. After that students are required to pay for a high school education. We have registered 7 kids in the past week. Due to the financial generosity of many of you, these students are being given the opportunity to change their economical status of not just their life, but also the lives of their families.

Prayers:

- Always wisdom in all things!
- For the scholarship students Kathy will be working with.
- For John as he works with the Hondurans constructing the dorms and clinic.
- For our teammate, Shannon, in the beginning weeks of working with single teenage moms.
- For our teammate, Kate, as she begins a new street kid ministry.
- For our teammates, the Troxells, as they start s new ministry in La Fe.
- For our teammates, the Pettengills, as they continue the work in Armenia Bonito.
