Update from Jean Giles

Dear Friends and Family,

I want to thank you for your prayers. My back problems are due to my pelvis becoming twisted in several directions. I thought I had a set-back on Tuesday evening [11/4], but it was not as bad as it could have been. With the faithful treatment from my chiropractor and God grace, I am improving. It is just a slow process. I will remain in the US for a few more weeks and then determine when to return to Belize. Please pray for all the necessary contacts and approvals to finalize for medical leave during my stay here. I miss being in Belize and look forward to my return.

In His Hands,

Jean Giles
