Please Pray for the Street Girls' Home

They Need a Government License

The House of Glory...

...is going to be a ministry home that reaches out to pregnant teenage girls who either live on the street or in unjust and oppressive situations. Jeremy and Amanda Ross, along with Susan Crenshaw (MTW missionaries) along with Luz de Vida Church (this is the Church plant that we are a part of) members are presently working to open this home on April 1st. However, there is a "roadblock."

In order to open the home officially and appropriately they need a license from the local government of Ate (the district in which the ministry and church are located).

Currently, that license has not been given and the team is trying to work it out as I write this.

Please pray along with all of us that, in the midst of this spiritual battle, God would open the hearts of government officials to grant this license to the House of Glory so that they could open.

Thank you all!

Sincerely in Christ Jesus,
Jim for Sara, Caroline, Chloe and Eli

PS Our new email update will be coming very soon! :)
