Dear Friends,

We are soon to celebrate the wonderful time when the disciples realized He is risen! Let us add a great Hallelujah to that and worship HIM in a special way at this time of the year when the world would want us to celebrate Easter bunnies and new outfits more than our RISEN KING.

Dick and I are pretty well settled here in Dayton and expect to stay here. We have bought a small house—a real fixer-upper—which seems to be our specialty, and are working to get it ready to move into as early in the summer as we can. We'll have room for company so keep us on your travel list... It would be great to have company if you are coming this way.

Dick continues to teach at Chattanooga State Technical College, in two different sites, and he is enjoying that. I am working at the hospital in Dayton, full-time mostly nights in the ER. They are 12 hours shifts so I usually have only 3 shifts a week to work. The people I work with are a great bunch and there is a real spirit of cooperation among them. This is a nice place to work.

Our church is a real blessing to us and the church family is warm and supportive. Dick goes to a weekly Monday morning Men's Bible Study, which he really enjoys, and we both go to Sunday school. My "living schedule" is quite restricted by when I have to work, but we cope with that just fine.

As the weather gets nicer, we will look forward to a couple of short trips north and maybe some camping. This is such a beautiful area to live in and has so many nice things to do!

We are always glad to hear from you, even though the time I have had for letter writing is not very much. There seems to be a paint brush in my hand every afternoon that I don't work at the hospital, and working from 6:45 p.m. to 7:15 a.m. doesn't leave too much energy for anything in the evenings that I work....

Wishing rich blessings in the name of the Lord, who is alive, well and coming again.
Sue for Dick and Sue
